SUMMARY:

Aspiring Creative Professional with a passion for digital design and front-end development. Pursuing opportunities in the creative industry where I can blend technical expertise with artistic vision. Experienced in crafting responsive websites, dashboards, and portfolio projects using React, TailwindCSS, and modern design tools. Driven to create clean, engaging, and user-friendly interfaces while continuously expanding my skills in visual design and creative technologies.

EXPERIENCES:

IT Intern – Management Services Division | Sep 2024 – Jan 2025

Department of Natural and Environment Resources – PENRO Bulacan

- Coordinated preventive maintenance schedule for office IT assets, ensuring timely servicing of desktops, printers, and UPS units.
- Performed hardware and software troubleshooting for the office staff.
- Maintained inventory records for IT equipment (laptops, desktops, printers).
- Assisted in decommissioning and secure disposal of end-of-life equipment following standard procedures.

Technical Team | Aug 2024 – Present

Bethany United Methodist Church

- Operated and maintained AV and streaming infrastructure for weekly services; configured video encoder settings and monitored stream health during live broadcasts.
- Configured and maintained PCs used for song projection and multimedia playback.
- Acted for technical incidents during events, restoring service quickly to minimize downtime.
